

DATA CENTRES

Viatel Technology Group is a leading provider of data centre solutions and digital services. We offer a range of colocation services in our three state-of-the-art data centres located in Dublin. Housed in the finest modern infrastructure and supported by stringent SLAs, our certified data centres ensure your technology and applications are properly powered, cooled, protected and connected.

EXPERIENCE AND INNOVATION

Viatel are data centre specialists with over 26 years of experience in the industry. We have a proven reputation for delivering exceptional customer service and support. As a technology company, we are always evolving. Our data centre customers can also leverage our public, private and hybrid cloud-based solutions and digital services to drive and support positive business outcomes.

REASONS TO CHOOSE VIATEL DATA CENTRES

Scale

Whether you need to host a single server or require a fully managed private suite, Viatel's colocation services can meet your requirements. Our services scale alongside your needs, on your timelines.

Connected

Access to multiple telecommunication providers. Full IP mesh connectivity. Dedicated 1/10/100G services to other major carrier neutral datacentres within Dublin Metro.

Compliant

Our data centres adhere to proven protocols to deliver operational excellence. All three centres are ISO 27001 certified.

Secure

Rigorous security protocols meet or exceed industry standards. On-site security personnel are supported by CCTV cameras and access controls.

Skilled

Certified engineers and solutions architects design your solution, assist migration and support our customers. Experienced on-site teams perform ongoing and preventive maintenance. Remote hands support available.

SOLUTIONS

- Colocation
- Private cloud
- Public cloud
- Disaster recovery
