

Resilient Connectivity for Every Construction Site

Resilient Connectivity Without the Complexity

Construction teams often juggle multiple connectivity providers alongside core build responsibilities. **Viatel simplifies this with a single point of contact for site connectivity.**

Streamlined Site Management & Reduced Admin Burden

- Single trusted partner for all site connectivity
- Management of planning, surveys, ordering and delivery
- Reduced delays, fewer providers, less admin for site teams

Connectivity That Works Wherever You Build

Construction projects often begin on remote or greenfield sites with limited infrastructure. **Viatel keeps sites connected from day one through every build stage.**

Rapid Deployment for greenfield & remote projects

- Connectivity for greenfield and remote sites
- Fibre, licensed radio and satellite solutions
- Supports projects from early works to completion

Always On, Engineering Led Support

When connectivity fails, productivity suffers. **Viatel provides continuous monitoring and direct access to engineering expertise when it matters most.**

Always On Support, Maximum Site Productivity

- 24/7/365 monitoring and support
- Network Operations Centres in Dublin & Limerick
- Direct access to engineers, not call centres

Our Purpose-Built Connectivity Path for Construction Projects

Step 1

Submit Site Plans to Viatel

Direct submission of blueprints to initiate infrastructure planning before the build begins.

Step 2

All-Access Network Survey

A specialised survey of all wholesale fibre, licensed radio, and satellite coverage for all urban, rural, remote or greenfield sites.

Step 3

Managed Ordering & Delivery

Viatel handles all procurement and deployment to ensure sites are live from day one.

Step 4

Engineering-Led Support

Continuous 24/7/365 support to prevent downtime during critical build phases.

Construction Connectivity Customer Case Studies

Cairn Power Site Productivity with Viatel

"Viatel's service is one of the most important services we use across the business. I've never experienced a single connection drop from site start through to project completion."

- Ryan Martin, IT Field Service Engineer, Cairn

THE SOLUTION:

Using a carrier-neutral, multi-technology approach, on-site connectivity is deployed rapidly across Cairn construction sites, supporting seamless collaboration and uninterrupted site operation.

CAIRN

Building a Partnership with Clancy

"Viatel & their support team went above and beyond to provide us with a solid solution that met our needs on a very demanding project. We look forward to working with them in the future."

- Brian Costello, Procurement & IT Manager

THE SOLUTION:

Viatel partnered with Clancy Construction to deliver fast, resilient on-site connectivity for a critical HSE project at Tallaght University Hospital. From planning and deployment to 24/7 support, Viatel provided a fully managed solution supporting site operations, safety and project delivery end to end.
